

Shorouq Rabea *Flutter Developer*

✉ shorouqrabea@outlook.com ☎ 01151358680 📍 Egypt 🌐 shorouqrabea13 📱 shorouqrabea2

Profile

Self-motivated **Flutter Developer** with strong knowledge of **Dart**, **object-oriented programming (OOP)**, and **cross-platform mobile app development**. Skilled in **API integration**, **Firebase**, and creating **responsive, user-friendly UI designs**. Passionate about building high-quality mobile applications that combine functionality with elegant design, while continuously learning and improving development skills.

Skills

Dart: OOP, async programming, collections, error handling

Flutter: Cross-platform mobile app development, UI design, state management(bloc), responsive layouts

APIs: REST APIs, JSON parsing, HTTP requests, integration with mobile apps

Firebase: Authentication, Firestore, Realtime Database, Cloud Storage

Git & GitHub: Information/Sub-skills: Version control, branching, collaboration, pull requests

Education

10/2022 – Present **B.Sc. in Computer Science**
Beni Suef University
Currently pursuing a Bachelor's degree in Computer Science with a focus on software development, problem solving. **Expected graduation:** 2026.

Professional Experience

07/2025 – Present **DEPI** 
Beni Suef, Egypt *Cross-Platform Mobile App Developer Intern*

- Worked with state management, Firebase, APIs, UI/UX, testing and deployment.
- Collaborated with a team on practical projects, improving problem solving and teamwork skills.

Projects

NoteApp 
Notes Application with Flutter & Firebase
Built a simple and functional notes application using **Flutter** and **Dart**, integrated with **Firebase** for real-time data storage and authentication. Features include creating, editing, and deleting notes, with data synced securely across devices.

Netflix App 
Netflix Clone App using Flutter & TMDB API
Created a Netflix-style movie app using Flutter and REST API integration with TMDB .Features include fetching real movie data, displaying categories (Now Playing, Popular, Top Rated). Focused on clean UI, smooth scrolling lists, and asynchronous API data handling.

Coffee App 
Coffee Shop Mobile App (UI/UX Practice)
Developed a coffee shop mobile app using Flutter. Focused on UI/UX design, product listing, and responsive layouts. Enhanced experience with Flutter widgets, navigation, and state management.
